## **Discussion Questions**

1. Rabbi Schneider's method for dealing with the demonic forces around us was aimed particularly at thoughts that are used to torment and keep us in bondage. What did he advocate we do when such attacks are perpetrated upon our minds? What words should be used in response? Are there particular strongholds of thought that you wrestle with and should watch out for? Jot them down here. As you use this method, write down what results you notice.
